

Over the years, Shaklee has fueled the dreams of many athletes. In fact, Shaklee-powered athletes have won over 120 medals at both the summer and winter Games.

This year we have extended our commitment to these world-class athletes by creating the **Shaklee Pure Performance Team**. This group of elite athletes, led by 2008 Beijing Games competitor and pentathlete Eli Bremer, has been handpicked from a variety of highly competitive sports.

Each of these athletes understands the importance of premium quality nutrition when it comes to competing at the highest levels possible. Safety and purity are of utmost importance to athletes of this caliber.

Safety is paramount at Shaklee, as well, and our standards are unsurpassed. We conduct up to 350 tests on every new ingredient for harmful

contaminants, and we perform over 100,000 quality tests a year to ensure the greatest purity and potency possible. That's why so many athletes have placed their trust in Shaklee.

Our goal with the **Shaklee Pure Performance Team** is simple. We aren't trying to make the superstars of sport richer through lucrative sponsorship deals, but rather to put premium nutritional products in the hands of those who believe in, and have come to rely on, their benefits—across both the popular and some of the more obscure, but equally competitive, sports that make up today's modern Games.

## Pure Performance Team
